Coffee 101

The difference between a cup of gourmet coffee and a cup of more common coffee comes down to the coffee bean. There are basically two kinds of beans, Arabica and Robusta. They are both grown all over the world. Arabica is grown at higher elevations and takes four or more years to produce a bean from the fruit of the tree and is much more difficult to grow. High quality coffee blends consist of 100% Arabica beans. Lower quality cheaper blends consist of Robusta beans which take about two years to bear fruit and can grow under harsher climate conditions. Robusta beans tend to produce a more bitter flavor. At Blueberry Hill we use 100% Arabica beans for a superior tasting cup of coffee.

IF YOU LIKE BEEF, YOU REALLY SHOULD READ THIS!

CERTIFIED ANGUS BEEF™

In 1978, the USDA decided to lower America's standards for grading its beef so more beef could be included as "Choice" beef. The American Angus Association was dissatisfied with the lowered standards and created a new grade of beef called ***Certified Angus Beef™***, that was subsequently approved by the USDA.

All Certified Angus Beef™ is of a higher quality than Choice beef. In fact, after the top 2% of cattle is graded as Prime, the next 6% of the best quality beef is graded as ***Certified Angus Beef™***. The remaining 92% of beef is either Choice or Select.

Unfortunately, not all "Angus" type cattle qualify to be ***Certified Angus Beef™***. In fact, only 1 in 5 "Angus" type cattle qualify to be ***Certified Angus Beef™***. Therefore because approximately 13 cattle companies sell some form of "Angus" type cattle most consumers believe any beef with the word "Angus" on its label is the same quality. When in fact not all Angus is equal.

WHAT'S THAT DARN BUZZER?

The buzzer is part of our food safety and sanitation program. It is a reminder for all employees to wash their hands every hour.

*HEALTH ADVISORY

The Nevada Department of Public Health advises that eating raw or under-cooked meat, poultry, eggs or seafood poses a health risk to everyone, but especially to the elderly, children under age four, pregnant women and other highly susceptible individuals with compromised immune systems. Thorough cooking of animal food reduces the risk of illness. For further information, contact your physician or public health department.
