FAMILY OWNED & OPERATED
SERVING LAS VEGAS SINCE 1987

The difference between a cup of gourmet coffee and a cup of more common coffee comes down to the coffee bean. There are basically two kinds of beans, Arabica and Robusta. They are both grown all over the world. Arabica is grown at higher elevations and takes four or more years to produce a bean from the fruit of the tree and is much more difficult to grow. High quality coffee blends consist of 100% Arabica beans. Lower quality cheaper blends consist of Robusta beans which take about two years to bear fruit and can grow under harsher climate conditions. Robusta beans tend to produce a more bitter flavor. At Blueberry Hill, we use 100% Arabica beans for a superior tasting cup of coffee.
